Quote from one of our clients...

Thank you for doing such a great job! And to think we weren't going to have a DJ!!!! Everyone had told us what a great wedding it was (some say the best they'd been to) and you were a big part of that. As far as feedback goes, I think you should know that you set your company apart because of your personal contact with me. Most DJ companies that I tried to contact didn't want to talk directly to me unless I booked them through the internet. Either that or they waited weeks to call me. And then of course you were so professional and friendly to my guests which was so great. I would recommend you for any event! That being said, thanks again for the great job. Pete and I loved everything!

*Sincerely,
Karen, Pete, & Keira Noonan*
